

# Affiliate Programme: **earn on every answered call**

Share bulk voice SMS with the businesses, churches, schools and organisations you know — and get paid when they use it.

Voice SMS delivers a recorded message as a normal phone call to MTN, Airtel, Glo and 9mobile numbers. People hear the message on any phone, in English, Pidgin, Yoruba, Hausa or Igbo, and our customers pay only for answered calls. Everyone who needs to reach people is a potential customer — and every customer you bring earns you money.
